PHI KAPPA SIGMA

Alpha Mu alumni of THE Massachusetts Institute of Technology

Dear Brothers:

Summer is here, and another academic year has passed at the chapter house. The attached issue of 530 AM has news from the past year at the house and the status of our undergraduate and alumni chapters as we look forward to continuing our roles as active participants in the MIT community.

Once a Phi Kappa Sigma, always a Phi Kappa Sigma

530 AM

Alumni President Report

Dear Phi Kappa Sigma Brothers:

Spring has again arrived in Cambridge, and I am happy to report that the active chapter is thriving and the chapter house is in good shape after its recent renovation. I think you will notice this in the articles in this issue of the 530 AM that we have a diverse membership with diverse interests and a lot of community spirit. The active chapter is back to normal operation after our shutdown period during the COVID-19 emergency. We are grateful for the support during this difficult period. Continued support from our alumni members goes a long way to keeping the house going and allowing us to offer a great living option for our active chapter members.

Enjoy this issue and feel free to send along news or memories about your time in the house.

Franomally,

Keith T. Kallberg

Alpha Report

It's been quite a busy semester here at Phi Kappa Sigma. With the pandemic drifting away in the past, each of our officers has worked hard to bring back the vibrancy of the chapter house and keep the COVID-19 hit. Our new executive board has been recently elected with seven dedicated members of the class of 2025 and me as the only '24. This completely fresh set of hands is constantly looking for new ways we can keep the community engaged and bring the house into the mix. Our new lots, Jesus Bentances, is collecting as much feedback from our '25s as he can while all their thoughts and feelings are still fresh in their minds from Pledge Program. We are also looking for ways to support what we have brought in a brilliant and diverse new class of Phi Kappa. Thanks to the creativity of our previous Rho Godard Committee, this new class sports a wide variety of talents and interests. Prince Teyler is solving some of the world's most pressing issues with MIT's first ever Black student government. He is also a dedicated and hung out of the house. Elijah Johnson was awarded Amazon's Future Engineer scholarship guaranteeing him \$400,000 and an internship for his freshman summer, an incredible accomplishment even among MIT students. Christian Colon has already secured internships through the majority of our social events, where he Due to many, we can't wait to see how great it will be living with this class next semester.

Our new Rho, Diego Barnes, is already looking for opportunities to make a substantial mark in the fall. He organized the house to host over 40 high school seniors from the MIT City Campus Preview (previously known as MIT City Campus). Despite the house being quite full, the students had a great time getting to know all the brothers. The CPAs events had a great turnout, especially the classic Steak and Shake. They had a great turnout and a great time. Now that we can our colors and life look forward to seeing these students again in the fall during night!

We hosted our first philanthropy event for 2023 during Spring Break weekend. The event was a joint event with the Alpha Mu Chapter of Phi Kappa Sigma. The brothers and sisters of both chapters came together as a few local bands performed to raise funds for the Live Like Lou Foundation. The foundation supports research for a cure for Amyotrophic Lateral Sclerosis (ALS), also known as Lou Gehrig's disease. The event was successful, welcoming over 100 friends, students, and family members. We are looking forward to the next one.

The Kenny Okale was the main attraction. The bands were outstanding and the crowd wanted more, so we are looking to do something similar again soon. I'm excited to see what our Phi will plan next as they turned!

Your Alpha,
Almeda Moncada '24
